

Wrap-Up

Your Full Service Medical Device Contractor

Let Us Be Your Regulatory Authorized Representative in Europe

If you are a Medical Device manufacturer exporting your products to Europe - under the guidelines of the Medical Device Directive, you are required to have an established Regulatory Authorized Representative in Europe.

Is your medical device company currently exporting or planning to expand into the European Economic Area (EEA)? The Medical Device Directive (MDD) requirements are being more strongly enforced as part of new or renewing CE mark audits.

The Regulatory Authorized European Representative Program offered by Surgical Technologies, Inc. (STI), provides complete support and compliance for your products from our facility in Amsterdam, The Netherlands. As your Regulatory Authorized Representative, we provide professional regulatory support of your products for Europe, according to the guidelines of 93/42/EEC.

With over 85 years medical manufacturing experience and as an Authorized Representative service provider since the first directive was enacted, STI specializes in full-service medical device contracting. Our Quality Assurance and Regulatory Affairs systems are fully developed and provide key insight for manufacturers. As experts in the contracting and manufacturing field, STI provides complete, confidential, and thorough support for your company.

STI can facilitate your success in the European market.

Introducing Sherman Glavan

STI is proud to announce Sherman Glavan as the new Technical Sales Representative! Sherman brings a wealth of experience in the Medical Device industry. We look forward to his continued success with STI in supporting our customers with their medical device needs.

Six Consecutive Gold Medals

Special Olympics State Golf Champion

Katie Timmer daughter of Pat and Dick Timmer (STI's Lead Manufacturing Engineer) won her sixth consecutive gold medal at the recent Special Olympics Minnesota (SOMN) state championship. Katie, who loves Special Olympic sports, not only is an outstanding golfer but also competes in a total of six year round sports with her favorites being golf and swimming.

In 2003 Katie participated in the Special Olympics World Summer Games held in Dublin, Ireland, and finished in 5th place in that international competition. In 1991, Katie competed in the Special Olympics World Games held in Minneapolis, and won 2 gold medals, one silver, and a bronze as part of Team Minnesota's Aquatics Team.

Katie is a Global Messenger for the Special Olympics and gives numerous speeches throughout the year to raise money and enhance awareness for the Special Olympics programs.

New Dry Room Production Capabilities Available

STI is proud to introduce our new class 10,000 Dry Room is now available for full scale production. This state of the art addition to STI will offer customers a moisture controlled cleanroom environment of less than 2% humidity. In addition, critical product moisture levels can be monitored to as low as 50 micrograms.

The Dry Room is ideal for:

- Moisture sensitive materials and products
- Powders
- Implants
- Pharmaceuticals
- Medical devices
- Tissue products

MD&M MPLS

STI and McLean are proud to actively attend the leading medical device industry meetings. We are dedicated, not only to providing support to our customers, but to our industry as a whole!

Service Awards

STI is proud to recognize the following team members and their years of service to STI and McLean Medical & Scientific. Our company has been built on the dedication and commitment of our highly trained and skilled associates. We thank you for your continued dedication and look forward to continued growth and success together.
